

# HERITAGE® VINTAGE® STARTER

PRODUCT DATA

MANUFACTURED IN PHILLIPSBURG, KS

The HERITAGE® VINTAGE® STARTER is part of a two course layer that must be applied prior to application of Heritage Vintage Shingles. The first course starter course may consist of TAMKO Shingle Starter, 3-tab self-sealing type shingles or a 9 inch wide strip of mineral surface roll roofing (Figure A). Over the first starter course, install Heritage Vintage Starter (Figure B). For application instructions refer to TAMKO's Heritage Vintage Starter wrapper or visit TAMKO's web site tamko.com.

**CAUTION:** This product contains crystalline silica and formaldehyde. Crystalline silica and formaldehyde have been classified as "known" human carcinogens by the International Agency for Research on Cancer (IARC) and the National Toxicology Program. This product also contains oxidized asphalt. Occupational exposures to oxidized asphalt and its emissions during roofing have been classified by IARC as a "probable human carcinogen". Oxidized asphalt also contains Polycyclic Aromatic Hydrocarbons some of which have been classified by IARC as known or probable human carcinogens. The physical nature of this product may help limit any inhalation or dermal hazard during application and/or removal. However, physical forces such as sawing, grinding or drilling during demolition work and heating or burning may increase the inhalation or dermal exposure hazard of this product. Take precautions to prevent breathing and contact with skin.
