

Add even more TAMKO® beauty and performance.

EverGrain® Composite Decking
 Nothing enhances the enjoyment of outdoor living quite like EverGrain® Composite Decking. It's made with an exclusive compression molding process that creates deep grain beauty in a strong board with outstanding durability and consistency.

Additional railing options
 TAMKO's additional railing systems lend themselves to endless customization. The Designer Railing System (pictured) features detailed styling. The 2x4 Traditional Railing System creates classic beauty and the Traditional Railing System offers a bold minimalist look.

Elements® DockBoard
 Made with a special composite formulation to offer the level of performance needed in marine applications and the strength to span 24 inches on center. Available in an attractive Pier Grey color, Elements® DockBoard is an ideal low maintenance alternative to real wood.*

TAM-RAIL®
 RAILING SYSTEMS

A whole new combination of strength and beauty.

**Three strong layers.
 Three beautiful colors.
 One easy choice.**

TAMKO
 BUILDING PRODUCTS

tam-rail.com

Designed to make installation fast and easy.

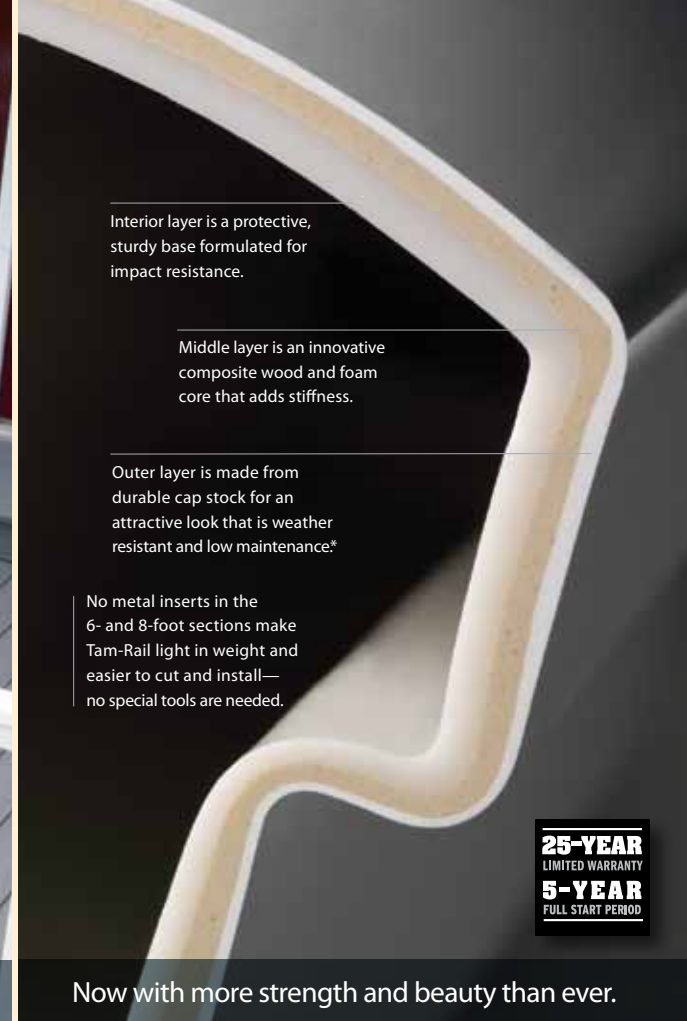

Additional Tam-Rail® system features

- Bracket placement template, premeasured with 36- and 42-inch railing height, helps speed installation of straight rail systems
- Packaged in kits for easy merchandising, selection and assembly
- Packaging includes stair chart to assist in selecting the proper kit for stair slope
- Rails include prerouted holes for accurate spacing of balusters and quick installation
- All metal brackets feature a bracket cover to conceal screw heads
- No special tools required
- Technical support is available

Whatever the application, we have you covered.

Interior layer is a protective, sturdy base formulated for impact resistance.

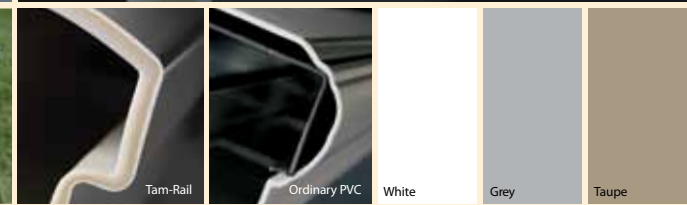

Middle layer is an innovative composite wood and foam core that adds stiffness.

Outer layer is made from durable cap stock for an attractive look that is weather resistant and low maintenance.*

No metal inserts in the 6- and 8-foot sections make Tam-Rail light in weight and easier to cut and install—no special tools are needed.

25-YEAR
LIMITED WARRANTY
5-YEAR
FULL START PERIOD

Now with more strength and beauty than ever.

Residential Applications

The Tam-Rail® Railing System is ideal for residential applications, adding beauty and strength to decks, porches and stairs.

Multifamily Housing

The Tam-Rail railing system is code approved and available in 8- and 10-foot sections, making it ideal for multifamily applications.

Wood or Concrete Applications

Two different post mount options are available to accommodate both wood and concrete installations.

Tam-Rail's strength comes from three layers, not metal inserts.

With its patented triple-layer construction, the Tam-Rail system creates code-approved strength with no metal inserts in the 6- and 8-foot sections. It has also been reformulated for even more strength. When you add its convenient kit packaging for easier installation, new color choices and enhanced design details, you have one easy choice for outstanding railing performance.

- Now available in White, Grey and Taupe
- Limited Warranty comes with a 5-year Full Start Period*
- Improved workability—cuts easily and installs quickly
- Building code approved: ATI CCRR #0118**
