

TAMKO® PERFORATED STARTER

Starter Course Shingles Application Instructions

NOTICE: THIS PRODUCT IS SOLD "AS IS" AND WITHOUT WARRANTY OF ANY KIND. ALL WARRANTIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXCLUDED.

IMPORTANT SAFETY INFORMATION: Do not install until all appropriate safety precautions have been read and understood. The TAMKO Safety Data Sheet (SDS) is available at tamko.com/sds. Always use appropriate fall protection equipment and wear appropriate personal protective equipment (PPE) when working with this product. Moisture, frost, debris or other material will decrease the traction and can cause slippery conditions when walking on the product. **Applicator safety is of utmost importance.**

- Bundle contains 16 perforated shingles to be separated into 32 starter shingles.
- Factory sealant strip
- Covers 105 linear feet per bundle when installed according to TAMKO's Installation Instructions

- Proper installation of the first course of shingles is critical to ensure proper alignment of the courses.
- TAMKO® Perforated Starter is packaged as a shingle with sealant applied parallel to each edge along the length of the shingle and perforated down the center.
- Separate each individual shingle along the perforation to create 2 individual starter shingles.
- TAMKO® Perforated Starter must be installed so that the sealant edge is nearest to the rake or eave edge of the roof. Follow the instructions in the drawing for proper application and fastening pattern.
