TW-60 Sheet Waterproofing Membrane

- Self-adhering rubberized asphalt sheet membrane with a polymer film on the surface
- Removable treated release film on the adhesive side
- 60-mil thickness*
- Available in factory precut widths of 6”, 9”, 12”, 18” and full 39-3/8” rolls*
- Available in Summer and Winter Grade formulas
- 5-year Limited Warranty & Arbitration Agreement

The Convenience of Kick and Roll

Contractors appreciate TW-60’s treated release film as opposed to paper, which can stick or tear. The simple application allows the contractor to get the job done faster. Simply kick and roll!

TWM-1 Mastic

- High-quality trowel-grade rubberized bitumen mastic
- Dries to a strong but pliable seal
- Applied with a trowel or caulking gun
- Available in 10.5 oz. tubes, quart tubes, 3 gallon bucket
- 5-year Limited Warranty & Arbitration Agreement

TW-105 Flashing

- Self-adhering rubberized asphalt sheet membrane with a polymer film on the surface
- Removable split release film on the adhesive side
- Can be installed at wall/floor intersections and other transition locations
- 105-mil thickness*
- Split release film
- Available in Summer and Winter Grade formulas
- 5-year Limited Warranty & Arbitration Agreement

Not intended for use on roofs or prolonged exposure to temperatures above 200°F
*Subject to manufacturing variation
