**TITAN XT**

**WHERE INNOVATION MEETS EXTREME TECHNOLOGY**

**RAPID FIRE ZONE™**

A clearly defined expanded nailing zone for fast and easy installation. Contractors can install quickly and with ease due to a zone five times larger than our standard Heritage® shingles’ nailing zone.* All with the reassurance that the entire nailing zone, including the common bond area of the Heritage Proline™ shingles, is reinforced, enabling this expanded zone.

**ULTRAMAX WEATHERING™ LAYER**

A proprietary, multi-layered asphalt with a custom engineered, weathering layer for extreme conditions. The ULTRAMAX WEATHERING™ Layer provides the highest level of protection and performance for the anti-aging granules, ensuring they stay put and look just like they did from day one.

**APX COLOR™ TECHNOLOGY**

A proprietary process that gives Heritage® shingles their advanced color performance. Each shingle is hand-coated to deliver a custom paint job that’s a perfect match for any home’s architectural style. APX COLOR™ Technology is also available in Heritage Proline™ shingles.

**ADVANCED FUSION™ SEALANTS**

A family of aggressive sealants, specifically designed to lock in nails, resist wind, and protect against extreme weather conditions.

**ANTI-AGING GRANULES**

A proprietary blend of superior granules designed to provide long-lasting protection and beauty. Anti-Aging Granules are designed to resist fading and severe weather conditions.

**POWER CORE™**

A proprietary layer designed to help resist high winds. The POWER CORE™ technology provides an anchor for the nails to embed in, locking them tightly to the deck.

**ANCHORLOCK™ LAYER**

A proprietary, high-strength layer that provides Heritage® shingles with enhanced wind protection. The ANCHORLOCK™ Layer is reinforced with a proprietary thread, providing an additional layer of protection against high winds.

**OUR MOST ADVANCED SHINGLE EVER**

**OUR MOST ADVANCED SHINGLE EVER**
Our Most Beautiful Look Ever

Heavier than classic Heritage® shingles, for a more beautiful wood shake look on your roof.

Our Fastest Installation Ever

Five-times-larger Rapid Fire Zone™ nailing zone* allows for faster, easier installation.

Our Highest Wind Protection Ever

Proprietary AnchorLock™ layer reinforcement of the nailing zone and our most advanced shingle sealants enabled Titan XT to pass industry wind tests and inspired Titan XT’s 160 MPH wind warranty.†

Our Most Popular Color Lineup

Inspired by the beauty of nature, Titan XT shingles feature colors from TAMKO’s most popular product lines, including our high-contrast America’s Natural Colors collection.

Our Strongest Seal Ever

Specially engineered, our Advanced Fusion™ sealants and AnchorLock™ layer technology are designed to seal quickly, lock in nails, and help resist high winds.

Our High Performing Weathering Layer

Enhanced weathering layer helps resist ice and water, while preserving the sought-after aesthetics of premium architectural roofing shingles.†

Our Most Beautiful Lock Ever

A proprietary granule blend featuring a long-lasting, weather-resistant finish and better shingles for a more stain-resistant roof.

Rapid Fire Zone™

Proprietary granule-based Rapid Fire Zone™ and the nailing zone can exceed rain and wind resistance of our standard Heritage® shingles. Rapid Fire Zone™ adds an additional layer of nailing zone right under the nailing zone, allowing the common bond area of the Heritage Proline™ shingles, creating this expanded zone.

Power Core™

A clearly defined expanded nailing zone for faster, easier installation. Contractors can install quickly and easily due to a zone five times larger than our standard Heritage® shingles’ nailing zone. All with the reassurance that the middle nailing zone is as strong as the nailing zone, ensuring this expanded zone.

Apex Color™ Technology

A proprietary treatment that gives Heritage Proline™ shingles their advanced stain-resistant performance. Apex Color™ technology provides a balance of color to the shingles for a balanced look of protection and color over time for the roof to maintain naturalness while looking lightly faded for the deck.

Anti-Agro Granules

A family of aggressive granules specifically designed to protect the deck area in wet weather. The Anti-Agro Granules have the ability to repel liquids, sand, and mud, and each other, to help hold fast.®

Advanced Fusion™ Sealants

A family of aggressive sealants that are sticky, even in cooler weather. Our Advanced Fusion™ sealants fuse the shingles quickly to the roof deck, and each other, to help resist high winds.

Apex Color™ Technology

A proprietary granule-based Rapid Fire Zone™ and the nailing zone can exceed rain and wind resistance of our standard Heritage® shingles. Rapid Fire Zone™ adds an additional layer of nailing zone right under the nailing zone, allowing the common bond area of the Heritage Proline™ shingles, creating this expanded zone.
