Prior to making your final color selection, TAMKO recommends viewing an actual roof installation of the same shingle color and manufacturing plant you are considering for the full impact of color blending and patterns. All colors vary by region, you may want to visit www.tamko.com and view colors available at your house. Photography in this brochure may have been digitally altered to enhance color photographs of actual shingles. A photograph of a color swatch should be used as a reference tool. Care is taken to ensure consistency in color presentation; however, slight color variations may occur. TAMKO is not responsible for color claims on once the shingles are installed on a roof.
