Offering the traditional looks of slate, tile and wood for commercial and residential roofs.

MetalWorks® steel shingles are a beautiful choice for a wide range of residential and commercial applications.

ENERGY STAR® qualified and rated by the Cool Roof Rating Council® CRRC.

The Many Beautiful Faces of Metal.
StoneCrest® Slate Steel Shingles

Create a dramatic look that closely replicates the random finish of natural slate. The double-stamped manufacturing process creates stunning beauty.

StoneCrest® Tile Steel Shingles

Create the distinctive look of smooth, uniform tile. For those who appreciate a contemporary and refined appearance.

AstonWood® Steel Shingles

Combine the warmth and look of cedar shingles with galvanized steel to produce a roofing product that replicates the rich look of wood.

Prior to making your final color selection, TAMKO recommends viewing an actual roof installation of the same shingle color and manufacturing plant you are considering for the full impact of color blending and patterns. As colors vary by region, you may want to visit www.tamko.com and view colors available by ZIP code. House photography in this brochure may have been digitally modified or created using photographs of actual shingles. Printed reproduction of the shingle colors is as accurate as our printing will permit. Prior to installing the shingles, open a bundle and view a few of the shingles to be certain it is the color you selected. TAMKO will not be responsible for color claims once the shingles are installed on a roof.

MetalWorks® Steel Shingles

MetalWorks® steel shingles pair the latest looks with G-90 steel. Whether it’s the traditional look of slate, the lustrous look of tile or the dramatic look of wood, MetalWorks® shingles are available in a full array of colors, all of which are ENERGY STAR® qualified.

G-90 Steel Construction

Fluoron® Coil Coating System

Containing 70% Polyvinylidene Fluoride (PVDF) proprietary resins

MetalWorks® Steel Shingles are coated with either a Kynar 500® resin-based finish or a Hylar 5000® resin-based finish.

Can Be Used for Reroofing Applications

Install over up to two layers of asphalt shingles*

100% Recyclable

Four-way Locking System

Utilized for effective installation

ENERGY STAR® Qualified

50-year Limited Warranty and Arbitration Agreement, 25-year Full Start Period

*Check your local building code. Building code restrictions may apply.

TW Underlayment

Used for application under metal roofs, this self-adhering underlayment has a rubberized asphalt, polymer film surfacing and a treated release film. Surface is textured for skid resistance.

TW Metal & Tile Underlayment

Used for application under metal roofs, this self-adhering underlayment has a fiberglass mat, rubberized asphalt, polymer film surfacing and a split treated release film.
