BUILDING PRODUCTS FOR THE PROFESSIONAL
Since 1944, building professionals and homeowners have looked to TAMKO for building products. Today, we offer a wide range of building products, including Heritage® Laminated Asphalt Shingles, Elite Glass-Seal® 3-tab Shingles, MetalWorks® steel shingles, waterproofing materials and ventilation products.

CHOOSE TAMKO® UNDERLAYMENTS FOR ALL YOUR ROOFING NEEDS
What's beneath the surface matters—especially when it comes to roofing. That's why TAMKO offers a wide range of underlayments for use prior to the application of shingles. Whether your job calls for self-adhering underlayments, lightweight synthetics, underlayments for metal and tile, or organic felts, TAMKO has you covered.

For more information on all of our underlayment solutions visit tamko.com.

TAMKO® ASPHALT SATURATED FELTS
TAMKO offers organic felt underlayment saturated in asphalt for asphltic tile and wood shake shingles. They help provide moisture protection to your roofing projects prior to the application of the shingles.

PRODUCT DATA

SYNTHETIC UNDERLAYMENTS

Synthetic underlayments have become a popular choice for roofing contractors. They are lighter in weight, less likely to tear compared to traditional felts. TAMKO has a custom logo print program available for contractors on our Synthetic Underlayments—contact a TAMKO Territory Manager for details.

SYNTHETIC GUARD™ PLUS UNDERLAYMENT

TAMKO® Synthetic Guard™ Plus Underlayment is a made of plastic fibers, spun bonded to a non-woven polypropylene surface film. Designed for high temperatures, it is best used under metal roofs, mechanically fastened tile, slate, wood shakes, asphalt or composite shingles. It is made of plastic fibers, spun bonded to a non-woven polypropylene surface film. Designed for high temperatures, it is best used under metal roofs, mechanically fastened tile, slate, wood shakes, asphalt or composite shingles.

- Non-woven polypropylene surface helps improve traction
- Polyepeylene scrim for added reinforcement of the underlayment
- Basecoate coating helps provide a slip-resistant surface
- Printed lay lines and fastener locations for standard and high wind applications
- 10-Year Limited Warranty and Arbitration Agreement

SELF-ADHERING UNDERLAYMENTS

Self-adhering underlayments are not used in underlayment with SBS modified bitumen asphalt, to make the application fast and easy with excellent waterproofing capabilities.

For underlayment with SBS modified bitumen asphalt, please see our Self-Adhering Underlayments section.

TW UNDERLAYMENT

TW Underlayment is a self-adhering, SBS modified bitumen asphalt underlayment featuring a polymer surface film. Designed for high temperatures, it helps provide moisture protection over the entire roof deck and is best used under metal roofs, mechanically fastened tile, slate, wood shakes, asphalt or composite shingles.

- Self-adhering SBS modified bitumen asphalt formulated for improved adhesive and waterproofing properties.
- Polyepeylene scrim for added reinforcement of the underlayment
- Basecoat coating helps provide a slip-resistant surface
- Printed lay lines and fastener locations for standard and high wind applications
- 5-Year Limited Warranty and Arbitration Agreement

- **5-Year Limited Warranty and Arbitration Agreement**

**TW SEAM TAPE**

TW Seam Tape is a ﬂexible, self-adhering SBS modiﬁed bitumen roll deck wax tape. Designed with a cutter ﬂex on the back, it is easy to remove from the coil and seams to provide secondary protection against water penetration.

- **Taped release ﬁlm for ease of installation.**
- **Polymer film surface that helps provide a single-ply surfacing.**
- **Works with all TAMKO shingles and underlayments.**
- **5-Year Limited Warranty and Arbitration Agreement**

**LIMITATIONS:**

- **Membrane must not be applied to damp, frosty or contaminated surfaces.**
- **Membrane must not be in contact with hot asphalt or products containing coal tar pitch.**
- **Once applied, underlayment must not be left exposed beyond 180 days.**

**TW UNDERLAYMENT**

TW underlayment is a self-adhering, SBS modified bitumen asphalt underlayment featuring a polymer surface film. Designed for high temperatures, it helps provide moisture protection over the entire roof deck and is best used under metal roofs, mechanically fastened tile, slate, wood shakes, asphalt or composite shingles.

- **Self-adhering SBS modified bitumen asphalt formulated for improved adhesive and waterproofing properties.**
- **Polymer film top surface that helps provide a single-ply surface.**
- **Taped treated release film for ease of installation.**
- **Tested for high temperature resistance up to 120°F.**
- **5-Year Limited Warranty and Arbitration Agreement**

**TW UNDERLAYMENT**

TW underlayment is a self-adhering, SBS modiﬁed bitumen asphalt underlayment featuring SBS modiﬁed bitumen asphalt. Designed for use in areas where underwater rain or ice or snowing is a possibility like the waxes, rains and snows, and around chimneys and skylights. It can be installed under wood shakes, asphalt and composite shingles.

BUILDING PRODUCTS FOR THE PROFESSIONAL
Since 1944, building professionals and homeowners have looked to TAMKO for building products. Today, we offer a wide range of building products, including Heritage® Laminated Asphalt Shingles, Elite Glass-Seal® 3-tab Shingles, MetalWorks® steel shingles, waterproofing materials and ventilation products.

CHOOSE TAMKO® UNDERLAYMENTS FOR ALL YOUR ROOFING NEEDS

What's beneath the surface matters—especially when it comes to roofing. That's why TAMKO offers a wide range of underlayments for use prior to the application of shingles. Whether your job calls for self-adhering underlayments, lightweight synthetics, underlayments for metal and tile, or organic felts, TAMKO has you covered. For more information on all of our underlayment solutions visit tamko.com.

UNDERLAYMENTS BEGIN TO AGE AS SOON AS THEY ARE EXPOSED TO NATURE. BUILDINGS EXPERIENCE AGING FACTORS DIFFERENTLY, SO IT IS DIFFICULT TO PREDICT HOW LONG UNDERLAYMENTS WILL LAST. THAT'S WHY TAMKO PROVIDES A LIMITED WARRANTY ON MOISTURE GUARD, TW METAL & TILE, TW UNDERLAYMENT, SYNTHETIC GUARD PLUS AND SYNTHETIC GUARD THAT INCLUDES A BINDING ARBITRATION CLAUSE AND OTHER TERMS AND CONDITIONS WHICH ARE INCORPORATED HEREIN BY REFERENCE. YOU MAY OBTAIN A COPY OF THE LIMITED WARRANTY AT TAMKO.COM OR BY CALLING 1-800-641-4691.
