TAM-PRO® 808 COLD APPLICATION CEMENT

DESCRIPTION
A semi-mastic brushing grade material formulated for the professional roofing contractor. Consists of pliable asphalt, quick drying petroleum solvents and tough fibers. Formulated specifically as an adhesive between plies of 19 inch selvedge, smooth or mineral surfaced roll roofing and laps for cold applied built-up roofing applications. Also know as blind-nailing or SIS cement. Acid and alkali resistant. 100% ASBESTOS FREE!

USES
This elastic waterproofing adhesive is specifically blended to set slowly, allowing the roofing membrane to expand, contract and flatten naturally- resisting buckles and wrinkles.

APPLICATION
Apply with a brush at the following application rates: Cold Method - 1 gallon per 50 sq. ft. Lap Cement - 1 gallon covers 396 linear ft.

APPLICABLE STANDARDS
ASTM D 3019 Type III Standard Specification for Lap Cement Used with Asphalt Roll Roofing
Miami-Dade County Product Control Approved
NOA 08-0423.16 Expiration Date 07/24/13

CAUTION: This product contains crystalline silica. Crystalline silica has been classified as a “known” human carcinogen by the International Agency for Research on Cancer (IARC) and the National Toxicology Program. This product also contains cutback asphalt. IARC has classified "extracts of steam and air-refined bitumens" (cutback asphalt) as "possibly carcinogenic to humans." The physical nature of this product may help limit any inhalation or dermal hazard during application and/or removal. However, physical forces such as sawing, grinding or drilling during demolition work and heating or burning may increase the inhalation or dermal exposure hazard of this product. Take precautions to prevent breathing fumes and contact with skin.
