Pour directly from the container and apply with a roofer's brush or spray equipment. Can be applied at temperatures as low as 40°F when kept at room temperature prior to use. Prime all metal, concrete, and masonry surfaces with TAM-PRO 813 Quick Dry Asphalt Primer prior to coating. Application rates include:

- BUR/Modified roofing - 2 to 3 gallons per 100 sq.ft.
- Metal surfaces - 1 to 1-1/2 gallons per 100 sq.ft.
- Concrete/masonry - 3 to 4 gallons per 100 sq.ft.

CAUTION: This product contains crystalline silica. Crystalline silica has been classified as a “known” human carcinogen by the International Agency for Research on Cancer (IARC) and the National Toxicology Program. This product also contains cutback asphalt. IARC has classified "extracts of steam and air-refined bitumens" (cutback asphalt) as "possibly carcinogenic to humans." The physical nature of this product may help limit any inhalation or dermal hazard during application and/or removal. However, physical forces such as sawing, grinding or drilling during demolition work and heating or burning may increase the inhalation or dermal exposure hazard of this product. Take precautions to prevent breathing fumes and contact with skin.
