MOISTURE GUARD® underlayment is a self-adhering, fiberglass and modified bitumen underlayment with a mineral surfacing, a removable release film on the adhesive side and removable selvedge release tape.

- Self-adhering rubberized asphalt
- Mineral surfacing
- Fiberglass mat
- Split treated release film
- Selvedge release tape
- 5-Year Limited Warranty and Arbitration Agreement

USES: For use as a self-adhering underlayment prior to installation of the final roof system and as a secondary layer used in areas susceptible to wind blown rain and ice damming. Moisture Guard is used on roof decks, along rake and eave edges, valleys and ridges, and around chimneys, dormers, vents and Skylights. Moisture Guard is used under most types of roofing, including tile, wood shake, asphalt, slate or composite shingles. It is not recommended for use under metal roofing.

WARNING: Use of this product in an assembly that includes polyurethane foam insulation (including without limitation an application directly to the underside of a roof deck or within a wall assembly) may cause premature degradation or failure of this product. We are investigating compatibility of polyurethane foams with our asphalt building products. Chemical incompatibility, off-gassing after application and excess heat during and after application of polyurethane foams may affect the performance of asphalt and modified asphalt building products and metal fasteners used with those products.
