DESCRIPTION

SYNTHETIC GUARD™ is a non-woven synthetic underlayment with a black coated polypropylene spun bond fabric surface, a polypropylene 5x5 scrim, and a black backside coating.

- Lay lines and cap-nail locations printed on the underlayment. Also includes additional high winds and Florida cap-nail locations.
- 10-year Limited Warranty and Arbitration Agreement.
- Can be used for wood shake, asphalt, or composite shingles.

USES: For use as a synthetic underlayment to be applied over the deck prior to installation of the final roof covering. It also is intended as a secondary layer for shedding water after installation of the roof system.

LIMITATIONS

- Underlayment must not be applied to wet or frosty surfaces.
- Underlayment must not be applied to unclean or contaminated surfaces.
- Underlayment must not come into contact with hot asphalt or products containing coal-tar pitch.
- Once applied, underlayment must not be left exposed beyond 180 days.
