TAM-PRO® Q-20 PREMIUM SBS FLASHING CEMENT

DESCRIPTION
A heavy bodied SBS polymer modified trowel grade wet/dry formula asphaltic cement. Combining select refined asphalt, prime solvents, wet surface additives, SBS (styrene-butadiene-styrene) rubberized polymers and extra strength interlocking fibers. This material is precisely blended into a smooth thixotropic, high performance material. Elastomeric properties promote expansion and contraction with the SBS modified bitumen membrane. **100% ASBESTOS FREE!**

USES
This premium SBS flashing cement is ideal for use in adhering SBS modified bitumen membrane flashings and laps. May also be used for fiberglass built-up roof system flashing applications.

APPLICATION
Surface to be treated must be free of dirt, dust, oil, etc. Prime all metal, concrete, and masonry surfaces with TAM-PRO 813 Quick Dry Asphalt Primer prior to use. Apply TAM-PRO Premium SBS Flashing Cement directly from the container with a trowel or knife at a rate of 1/8 inch per 100 square feet. Also, mechanical fasteners should be used to fasten the Modified Bitumen membrane per generally accepted roofing application on vertical or sloped flashings.

Precautions: For cold weather application, store at room temperature for 24 hours prior to use. Not for use with APP (Atactic Polypropylene) or membranes which have a plastic or polypropylene backing.

APPLICABLE STANDARDS

CAUTION: This product contains crystalline silica. Crystalline silica has been classified as a “known” human carcinogen by the International Agency for Research on Cancer (IARC) and the National Toxicology Program. This product also contains cutback asphalt. IARC has classified "extracts of steam and air-refined bitumens" (cutback asphalt) as "possibly carcinogenic to humans." The physical nature of this product may help limit any inhalation or dermal hazard during application and/or removal. However, physical forces such as sawing, grinding or drilling during demolition work and heating or burning may increase the inhalation or dermal exposure hazard of this product. Take precautions to prevent breathing fumes and contact with skin.
