TAM-PRO® Q-5 HEAVY-BODIED FLASHING CEMENT

DESCRIPTION
A heavy-bodied all-weather trowel-grade mastic that contains select asphalts, petroleum solvents, tough reinforcing fibers, and special additives that enhance spreadability. Dries to form a durable, but pliable, seal that allows for minor expansion and contraction. Acid and alkali resistant, it bonds to all clean surfaces except coal tar-based materials. 100% ASBESTOS FREE!

USES
Flashing construction and other detail roofing work such as tie-offs or shingle securement. Provides excellent waterproofing properties for temporary repairs, or more permanent repairs when used with glass reinforcement.

APPLICATION
Apply with a trowel or knife. One gallon covers 12.5 sq.ft. to an 1/8" thickness.

APPLICABLE STANDARDS
ASTM D 4586 Type I Standard Specification for Asphalt Roof Cement
ASTM D 3409 Standard Test Method for Adhesion of Asphalt Roof Cement to Damp, Wet, or Underwater Surfaces. Miami-Dade County Product Control Approved NOA 08-0423.16 Expiration Date 07/24/13

CAUTION: This product contains crystalline silica. Crystalline silica has been classified as a “known” human carcinogen by the International Agency for Research on Cancer (IARC) and the National Toxicology Program. This product also contains cutback asphalt. IARC has classified “extracts of steam and air-refined bitumens” (cutback asphalt) as “possibly carcinogenic to humans.” The physical nature of this product may help limit any inhalation or dermal hazard during application and/or removal. However, physical forces such as sawing, grinding or drilling during demolition work and heating or burning may increase the inhalation or dermal exposure hazard of this product. Take precautions to prevent breathing fumes and contact with skin.
