CONTRACTORS EARN REWARDS BASED UPON THE CERTIFICATION LEVEL, VOLUME AND WARRANTY INCENTIVE.

Full program details and obligations are contained in the TAMKO Professional Certified Contractor Agreement. Also see tamko.com/edge.

† “Beyond Class 4” is a marketing term and does not refer to any official UL impact rating. HailGuard™ shingles are classified by UL for compliance with UL 2218 Class 4 impact resistance. UL 2218 utilizes a dropped steel ball which may not correlate with real world rooftop experience with the impact of storm driven hail or other objects. Currently, UL testing does not include classifications higher than Class 4; however, TAMKO has successfully tested HailGuard™ shingles at impact energies exceeding UL 2218 Class 4. See TAMKO’s HailGuard™ Extended Limited System Warranty for complete terms and details.

\* Full Start® period for non-Single-Family Structures is 30 years (except for TAMKO Shield™ enhanced limited system warranty which is 10 years).

‡ Must include Synthetic Guard™ and Moisture Guard® in order to qualify for the HailGuard™ Limited System Warranty.

\*\* Must include Proline® Hip and Ridge in order to qualify for the TAMKO MasterShield® and TAMKO DiamondShield™.
